

elsa recovered paper

Elsa Recovered Paper is a family run business specialising in the recycling of paper based waste. Based in Greater Manchester 3 generations have been serving the North West for over 50 years.

As experts in the collection, sorting and grading of recovered paper, we aim to help our customers effectively process their recovered paper. We currently recycle over 700 tonnes per week of paper supplying mills in the UK, Europe and the Far East.

With a strong environmental ethics we are committed to providing a service which allows our customers to minimise their impact on the environment in the most cost effective way possible.

why use elsa?

We have built a team of experts who are on hand to help you with your recycling issues. We work with you to find the ideal solution when handling your recovered paper and can help you choose the equipment best suited to your application.

We can arrange collection to suit you looking after the sorting and grading on your behalf. Our aim is to provide a hassle free solution to your paper recycling needs.

Experts in recycling

We've been recycling for over 50 years so you can be sure that you are working with the experts. We also know that no two companies have the same recycling needs which is why we offer a no obligation site visit for us to work with you to design the perfect recycling solution.

Our service is hassle free and second to none, we'll collect, sort, grade and recycle your paper, all you have to do is meet us.

Whatever you need

Forget size is important and location, location, location, our recycling center is set up in such a way that we are flexible enough to

accept any job no matter how large or small and we have a fleet of dedicated vehicles to make collections a breeze.

Our solution is not one size fits all and we'll work with you to provide a reliable, cost effective service tailored to your organisation.

We already have many satisfied customer including Universities, Councils and large blue chip companies.

why use elsa secure shredding?

Elsa Secure Shredding is part of the Elsa Recycling Group, established for over 50 years we specialise in the destruction of documents and data securely.

Keeping your sensitive information secure is key to your business, and is a legal requirement as part of the data protection act. Imagine the consequences of confidential information falling into the wrong hands... at best embarrassing, at worst damaging to your business and could result in a hefty fine and legal action.

Whatever your requirements we have a solution to suit you – we can tailor a service to your business with flexible collection we will securely destroy and dispose of your documents from our purpose built facility. To ensure ultimate security we have state of the art systems in place, including CCTV, alarms and for extra peace of mind on completion of work we will issue a certificate of destruction so you can be sure of a job well done.

better for you, better for the environment

By seamlessly linking with our sister company Elsa Recovered Paper we ensure that your destroyed documents are recycled back into paper products. In fact we save the equivalent of 14 trees for every ton of paper we recycle!

equipment

Our high capacity shredding machines can handle in ten minutes what a reasonable office type shredder would take eight hours, giving you a cost effective solution that saves time and labour.

collection

However large or small your task we have the solution for you from 15kg security sacks, to flexible wheeled security bins (60 – 90Kg) and for large archive clearances we have 35 cubic yard roll-off lidded containers.

service

Our service is second to none, we work with you to find the perfect solution. Our methods are completely secure and we can provide a certificate of destruction for complete peace of mind. Our North West network means we can arrange collections to suit your needs with minimum disruption to you.

counterfeit goods

Our equipment configuration means that we can safely and securely offer a destruction service for counterfeit and sub-standard goods. We can handle any materials including CD's, Audio/ Video tapes, IT equipment, clothing and footwear.

elsa plastic recycling

The UK currently produces 3 million tonnes of plastic waste, the majority of which is destined for landfills (Friend of the Earth). The environmental impact of plastic waste is massive and one of the most immediate and best ways to reduce this impact is to recycle.

Elsa Plastic Recycling is specialist division of Elsa Recycling Group and have been recycling plastic for over a decade. We are perfectly placed to deliver an effective plastic recycling solution to your business as we have built a logistics network and infrastructure that means we can handle most grades of soft and hard plastic, contaminated and uncontaminated and can arrange convenient collection for you.

why use elsa plastic recycling?

We have established ourselves in the Far East by forging links with plastic re-processors so that we can provide a cost effective plastic recycling service. And as an accredited plastic recycler we can supply PERN's to our customers enabling you to meet your recycling obligations throughout the year.

Our vast experience means that we can guarantee you an excellent collection service and cost effective rates. We are proud to be the plastic recycler of choice for many local authorities helping to organise collection and processing of a wide range of plastics.

The easy way to recycle plastic

Whatever your plastic waste we can handle it, our expertise ranges from small scale mixed plastics to fully baled industrial plastic recycling. We handle everything for you, from collection and sorting to completion, and work with you to ensure that the process is a smooth one.

Tailored to your needs

We can provide recycling bins that can be located in your premises – you don't need to sort the plastic as we can handle any grade. Or for more industrial producers we can arrange for regular collection of bales as we have a wide range of collection vehicles from vans to articulated lorries.

From bottles to bales in no time

Our cutting edge recycling technology means that you no longer need to sort and grade your plastic prior to collection. We have invested heavily in technology and built relationships in the Far East in order to provide you with a simple, cost effective solution.

Proven track record

We already handle plastic recycling for a large number of big name clients including local authorities and large scale manufacturers.
